Forecast For East Midlands
Issued by Met Office Exeter
at 0400 on Wednesday 18 Aug 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Generally cloudy with some drizzle possible. Sunnier, warmer in east.

Today:
A rather cloudy and breezy day, although some brighter or sunny intervals are possible, mainly across Lincolnshire through the morning. Outbreaks of light rain or drizzle also likely, mainly towards the south and west. Feeling warm in any brightness. Maximum temperature 22 deg C (72 deg F).

Tonight:
Cloud thickening from the west through the evening and overnight with outbreaks of rain or drizzle also spreading east. Winds easing and feeling rather mild. Minimum temperature 13 deg C (55 deg F).

Thursday:
Generally cloudy start, with overnight rain soon clearing east. Brief brighter, perhaps sunny intervals possible. Further cloud then spreading east bringing a chance of showers, mainly during the afternoon. Maximum temperature 22 deg C (72 deg F).

Outlook for Friday to Sunday:
Warm Friday, with sunny intervals and variable cloud. Rather cloudy Saturday, with showers possible. Following night and Sunday uncertain, but likely cloudy with heavy showers or rain, perhaps torrential downpours.
